Community Event Calendar

Community Event Calendar · https://docs.dacapoinventory.com/doc/community-calendar/

The Community Event Calendar allows teachers to add events to their district's Da Capo Inventory Event Calendar.

Events can be created with different levels of visibility:

- Public - All people can view events from a special link generated by Da Capo Inventory. This link can be posted on your school district's website or shared on your organization's webpage
- Show only to logged in Teachers - Events will only be visible to paid users of Da Capo Inventory - your colleagues in your school district
- Events can be shown on the Districtwide calendar OR your specific building calendar through special links generated by Da Capo Inventory.

The links can be found by clicking 'IFrame Link' on the Community Event Calendar webpage.
