District Supplies Overview

Department Leader Documentation · https://docs.dacapoinventory.com/doc/district-supplies-overview/

Directors see supply inventory across buildings — consumables and loanable items — in one place.

Where to go

Inventory → District Supplies

What you can do

- Browse supplies by building, status, and type.
- Toggle notes when you need extra context on the list.
- Filter views such as All / Consumable / Loanable.
- See assignment status for loanable supplies.

Teachers still manage day-to-day supplies in their building tools. This page is the district-wide lens for ordering and equity across schools.
