Rental / Maintenance Fee Reports

Financials & Trips · https://docs.dacapoinventory.com/doc/rental-maintenance-fee-reports/

Building Transaction Details

This report will show you every transaction that has taken place, separately. For example, if Brittany owed a total of $55, and the teacher logged multiple partial payments, each individual payment and receipt will be available in this table.

Building Rental Fee Details

This report will show an overview for each student’s rental of each instrument. Even if Brittany paid in multiple payments, this report will show the total owed and the total paid for a given instrument. If the report shows ‘Returned without paying full price’, that means that the instrument was returned before the entire fee was marked as paid.
