Student Practice Logs and Audio Recordings

Enrollment · https://docs.dacapoinventory.com/doc/student-practice-logs-and-audio-recordings/

Da Capo Inventory now allows students to submit practice logs, record goal achievements, and even upload audio recordings — all by scanning their personalized QR code!

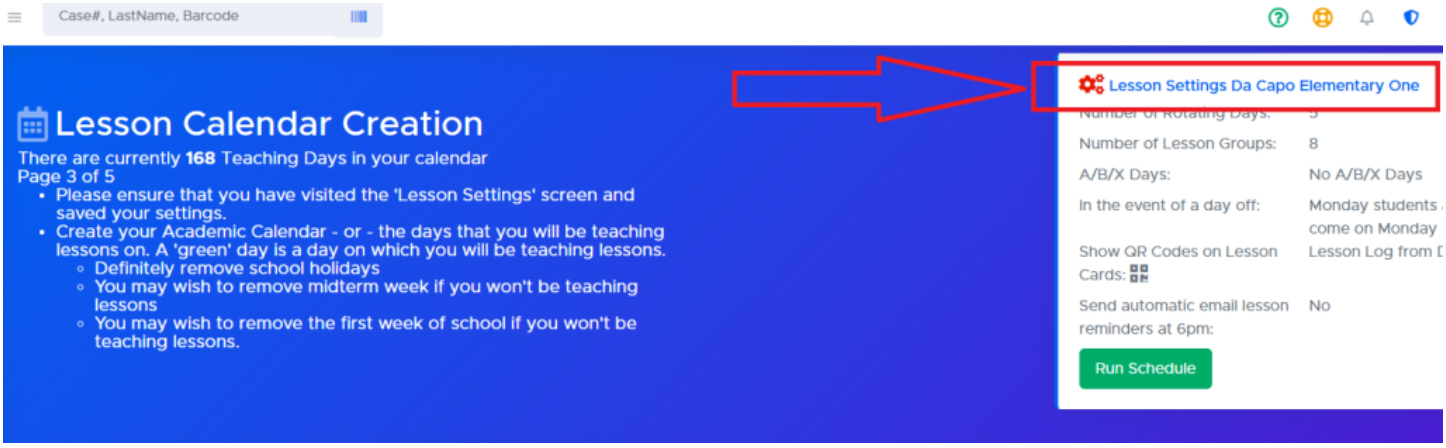

> IMPORTANT: All recordings will be automatically deleted from the server 90 days after being uploaded.

How to Activate This Feature

Option 1: Use the Lesson Scheduling system

1. Check the box labeled **“Create Personalized QR Codes.”**
2. Once your schedule is set up, visit the **Lesson Settings** popup screen.

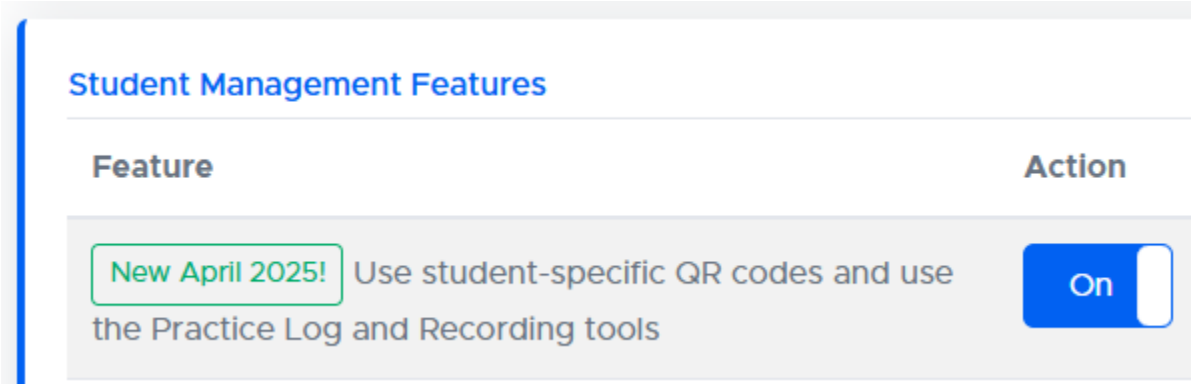

Option 2: Use the print labels button on the Enrollment page

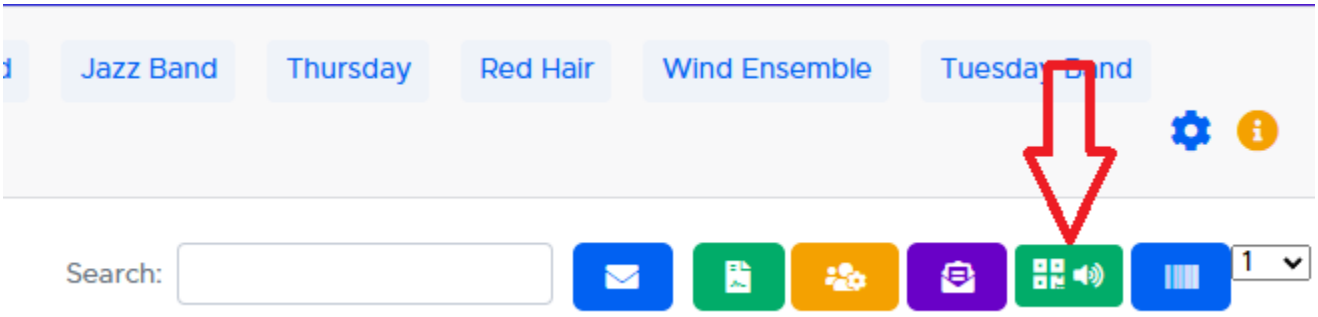

If you are not using the lesson scheduling system you can still use the Practice Log and Audio Upload system. To enable the feature, **visit your 'Program Settings' screen** and enable the 'Use

student-specific QR codes' feature. You can then print QR codes for Practice Logs and Audio Uploads from the Enrollment page.

Program Settings Screen - Enable Student-Specific QR Codes

NOTE: These cards do not print on any specific label size at this time. They are designed to print on either Avery 5163 labels or regular paper.

Printing Student-Specific QR Codes

If you chose Option 1 above, after enabling the setting:

- Navigate to the **Lesson Cards** page.
- Click **Print** to generate the PDF lesson cards.
- Each student's name will appear **underlined** on their personalized card.

Be sure to distribute the *name-underlined* cards to each student — these contain their unique QR codes.

What Happens When a Student Scans Their QR Code?

When a student scans their personalized QR code, they'll be taken to a **secure student screen** that includes:

- A built-in **Metronome** & **Tuner**
- Their **weekly lesson notes**
- A place to **log their practice minutes**
- A way to report **achieved goals**
- An option to **record a 90-second audio clip**
- Student can view their Streaks

This page does not display or collect any personal identifying information.
Students are not logged in, and submissions are securely linked to their teacher's account.

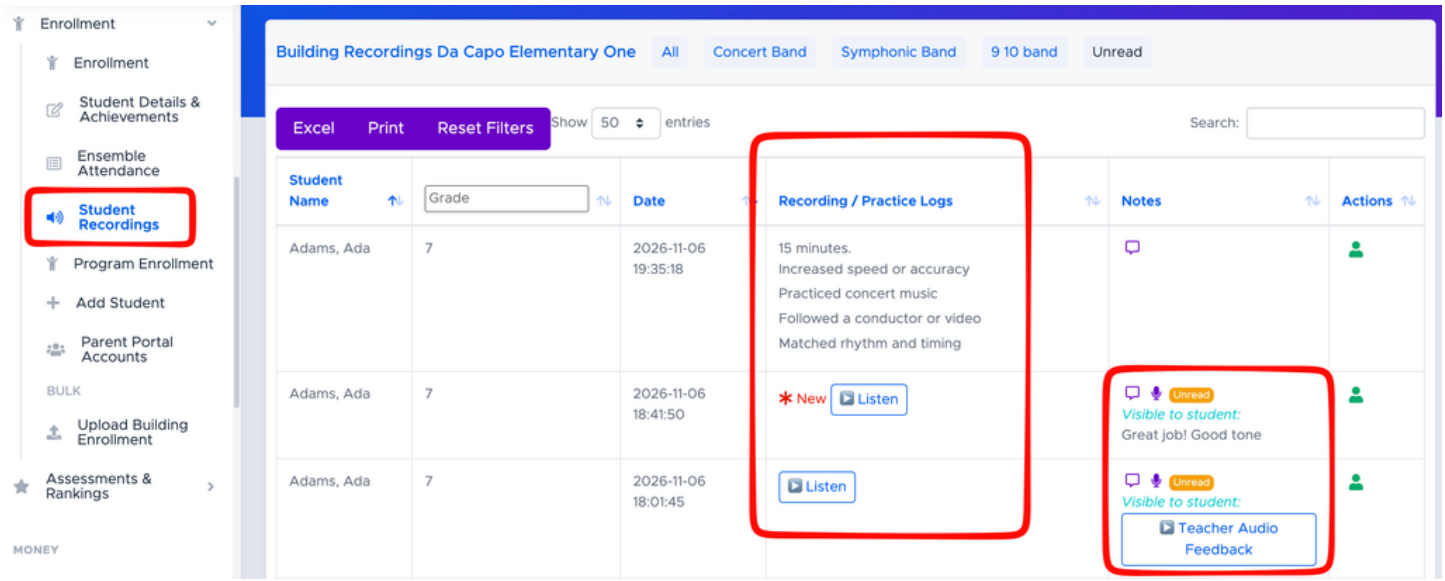

Viewing and Listening to Student Submissions

Teachers can review submitted practice logs, goal achievements, and listen to or download recordings from the new **Student Recordings** page (found under the **Enrollment** menu).

> This page will only appear if you've enabled **"Create Personalized QR Codes"** in the Lesson Settings or Program Settings screens.

Additionally, you can click the **purple note icon** in the table to add teacher feedback or remarks for each submission. Clicking on the **purple mic icon** lets you leave personalized audio feedback for you student to listen to. ***Notes written or audio feedback about audio recordings will be visible to students when they scan their QR code.***

Practicing Streaks

Students who **record a practice session or log a practice entry each day** will build up their **Practicing Streak**.

As students maintain consecutive days of practice, they'll unlock **special encouragement messages** at the following milestones:
3 days, 5 days, 7 days, 10 days, and 14 days.

These messages are designed to **motivate consistent practice habits** and celebrate students' progress.

If there are any students on a current streak, teachers can see this at a glance on the **Teacher Dashboard**, in the **Enrollment Card**.
